

CA-401

LARGE CAPACITY MODEL.

It consists of a 1-speed motor block and a large capacity hopper.

- It consists of a 1-speed motor block and a large capacity hopper.
- Stainless steel construction and highest quality material, all suitable for contact with food.
- New production technology that give a uniform, highest-quality cutting result.
- Large production head with lateral blade, which distributes the product inside the inlet and cuts and distributes entire product like cabbage. In option the included core drill can also be used with the same purpose.
- High positioned ejection disc allowing to eject a bigger product quantity.
- The large range of high quality discs and grids allows the operator to obtain over 70 different styles of product.
- Ergonomic design.
- Lateral product ejection, which allows the appliance to be placed in a less deep working surface. This directs the product avoiding splashing.
- Electronic, user-friendly control board.
- Easily removable lever and lid for cleaning purpose.
- NSF-International certified appliance (complying with Hygiene, Cleaning and Food Material regulations).
- Please note: as a result of continuous product improvements, these specifications are subject to change without prior notice.
